

'Anachrone circles' (Wim Kratsborn, 2023/2024)

It's in the air and it shines like rain

I think you didn't notice. It's coming back again

Listen very closely, you might hear the sound

It's getting deeper then you guess, spinning around

Anachrone circles in the sky. You may catch them if you try.

Meet me at the demasqué and make my day

Footprints on the ground , circles in the air

You're never too young or too old to be a citizen anywhere

Feel free to walk in my city?

Where the grass is green and the girls are pretty

Modern slavery and racism are on their way,

Many people are on the run, living from day to day

It's all about sport, empty pages in a book

You are changing colour, every time I look

Why do so many people eat unhealthy food

The smoldering fire is burning down the wood

Give respect and an equal chance, although his name is Ahmad and not Hans.

Anachrone circles in the sky, you may catch them if you try.!

Climate change cannot be seen in an oasis of green

So let's make love, despite colour, gender or age

Let's go to Paris for the Olympic Games, make the world change

Make a 'multiple choice identity'

To meet and mix and to be free

We have to get out of this clusterfuck

and we will need a whole lotta luck

Anachrone circles in the sky. You may catch them if you try. MCI I'll tell you why.
